Things you'll need:

1/2 inch thick piece of scrap wood 24in x 24in

1 inch thick piece of scrap wood 12in x 8in

Drill

Jigsaw

Sandpaper

Paint or varnish

4 x 1 1/4 in screws

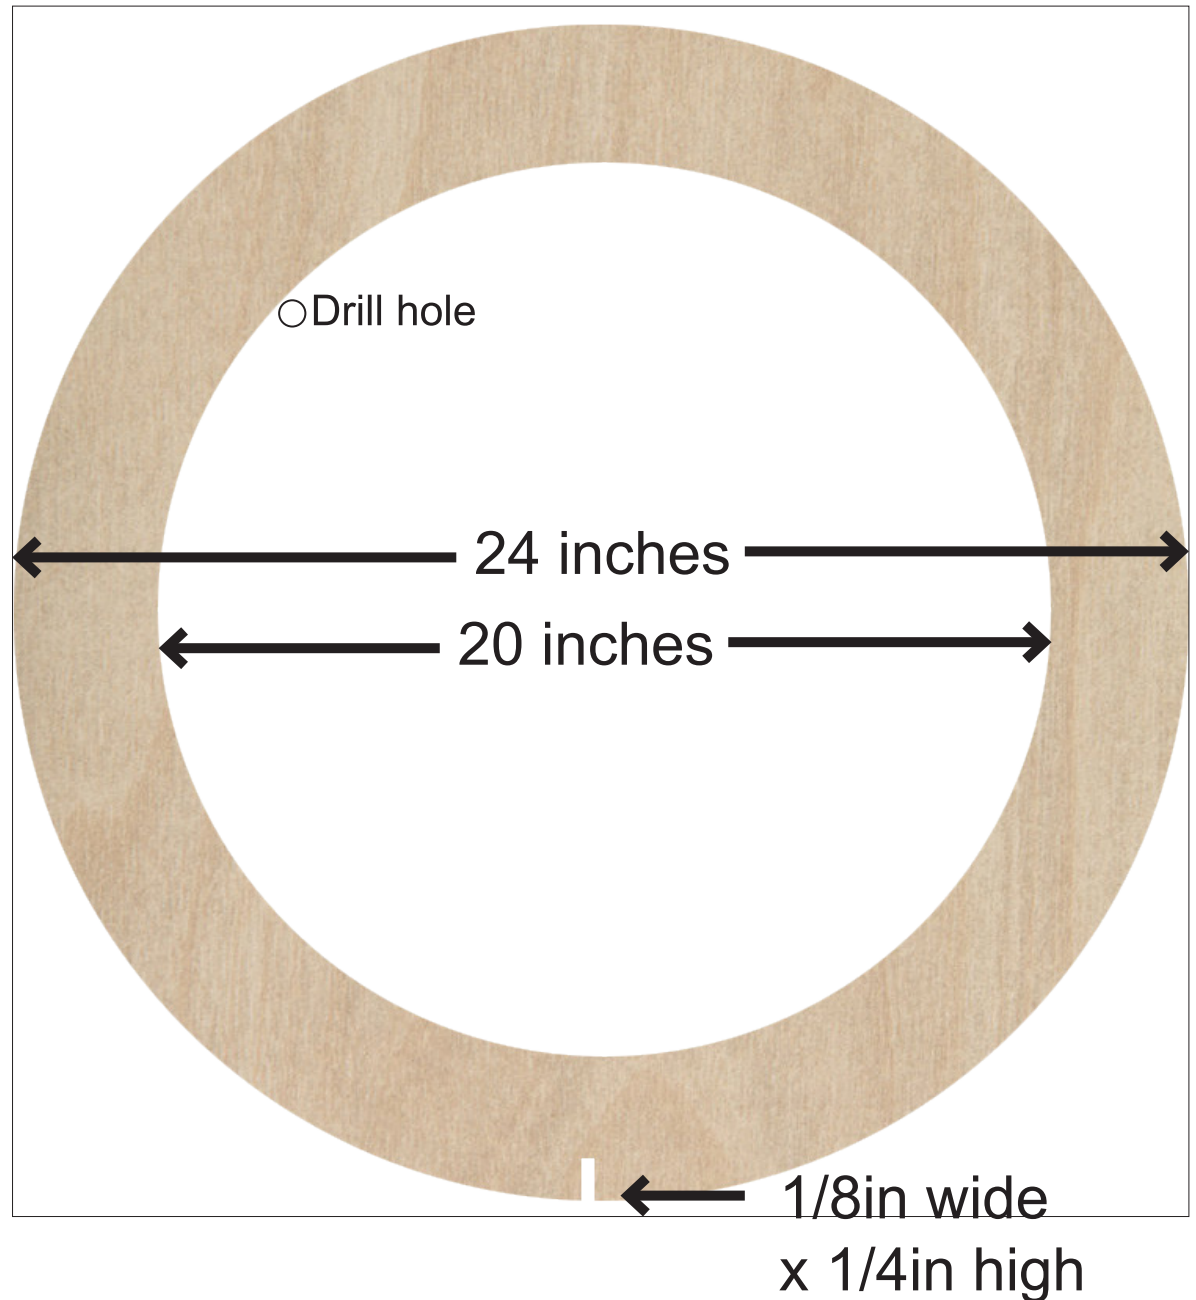

Ring Measurements

Timber should be around 1/2 inch thick

Tap a small nail into the centre of the board and attached a string and a pen to draw 2 perfect circles.

Drill a hole wide enough for your jigsaw bit to drop down into the hole so you can start cutting close to the inner circle edge.

Cut out with a jigsaw

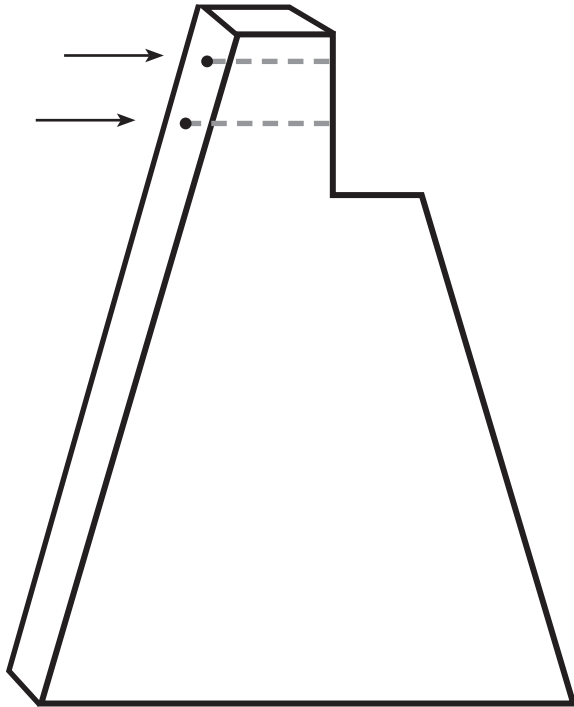

Stand Measurements

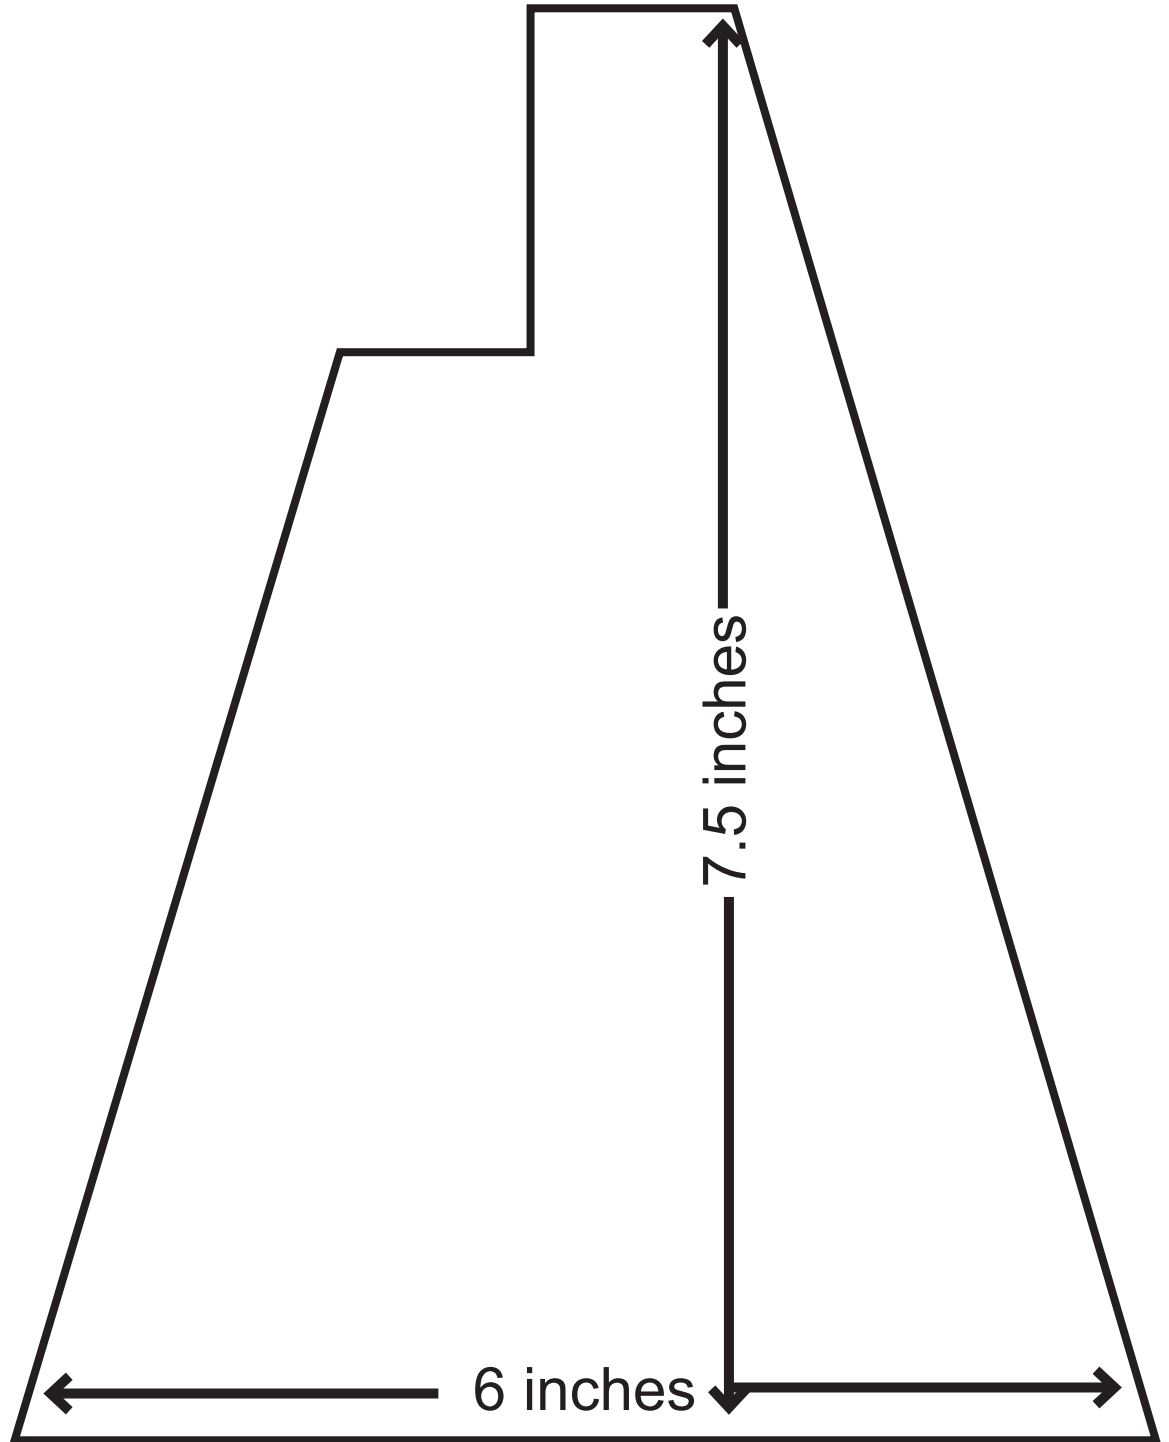

Timber should be around 1 inch thick

Cut 2

Drill and countersink 2 holes into the back of each leg stand

To scale, print to use as template

Stick on the LED strip

It should wrap around 3 times.
